

I am concerned about the LPFM stations affecting my ability to listen to K-LOVE, my local Christian radio station at 100.9 FM in Tucson, AZ. As it is, I have trouble hearing the station everywhere in my house. If the station is replaced by an LPFM station, I will not be able to receive it at all, I'm afraid. Then I would have to listen to other stations that are less able to reach the community with the gospel of Jesus Christ through contemporary Christian music. Sometimes Christian music is the door whereby people are drawn to a local church. Please do not change the current set-up for K-LOVE.

Thank you,  
Sharon Gannon
